RESEARCH INTERESTS

Differential Geometry, Geometric Analysis, Global Analysis, Analysis on Manifolds.

EDUCATION

Ph.D. in Mathematics 2007–2010
Ankara University, Ankara, Türkiye
Dissertation: "Time-like Helicoidal and Rotational Surfaces with Light-like Profile Curve in Three-Dimensional Minkowski Space"
Advisors: Prof. Hasan Hilmi Hacısalihoğlu; Prof. Yusuf Yaylı

M.Sc. in Mathematics 2003–2005
Gazi University, Ankara, Türkiye
Thesis: "Helicoidal Surfaces in Three-Dimensional Minkowski Space"
Advisor: Prof. Aysel Turgut Vanlı

B.Sc. in Mathematics 1993–1997
Ondokuz Mayıs University, Samsun, Türkiye

ACADEMIC APPOINTMENTS

Professor Oct 2024–Jul 2025 (on leave; left Aug 2025)
Bartın University, Department of Mathematics, Bartın, Türkiye

Associate Professor Apr 2019–Oct 2024 (on leave Aug–Oct 2024)
Bartın University, Department of Mathematics, Bartın, Türkiye

Assistant Professor 2013–2019
Bartın University, Department of Mathematics, Bartın, Türkiye

Research and Teaching Visits

Postdoctoral Teaching Scholar Sep 2024–Present
Texas Tech University, Department of Mathematics and Statistics, Lubbock, TX, USA
Host: Prof. Magdalena Daniela Toda
Funding: **Texas Tech University**

Postdoctoral Researcher 2014
Kobe University, Department of Mathematics, Kobe, Japan
Host: Prof. Wayne Rossman
Funding: **TUBITAK (2219-International Postdoctoral Research Fellowship Program)**

Visiting Researcher 2014
University of Granada, Department of Geometry and Topology, Granada, Spain
Host: Prof. Rafael López
Funding: **University of Granada**

Postdoctoral Researcher 2011–2012
Katholieke Leuven University, Department of Mathematics, Leuven, Belgium
Host: Prof. Franki Dillen
Funding: **TUBITAK (2219-International Postdoctoral Research Fellowship Program)**

Seminars

- **Texas Tech University**, Department of Mathematics and Statistics, Lubbock, TX, USA Apr 1, 2026
  Differential Geometry, PDE, and Mathematical Physics Seminar
  "A New Formulation of the Weierstrass–Enneper Representation for Minimal Surfaces in $\mathbb{R}^4$"

- **Texas Tech University**, Department of Mathematics and Statistics, Lubbock, TX, USA Sep 30, 2025
  Differential Geometry, PDE, and Mathematical Physics Seminar
  "On a Class of Rotational Hypersurfaces in $\mathbb{E}^6$ with a Prescribed Laplacian"

- **Texas Tech University**, Department of Mathematics and Statistics, Lubbock, TX, USA Sep 16, 2025
  Differential Geometry, PDE, and Mathematical Physics Seminar
  "A Study of a Space-like Rotational Hypersurface in $\mathbb{E}_2^4$"

- **Texas Tech University**, Department of Mathematics and Statistics, Lubbock, TX, USA Oct 15, 2024
  Differential Geometry, PDE, and Mathematical Physics Seminar
  "Fourth Fundamental Form and Curvature of Rotational Hypersurfaces in 4D Euclidean Space"

- **Texas Tech University**, Department of Mathematics and Statistics, Lubbock, TX, USA Sep 10, 2024
  Differential Geometry, PDE, and Mathematical Physics Seminar
  "The Algebraic Surfaces of Enneper's Maximal Surfaces in 3D Minkowski Space"

- **Kyushu University**, Institute of Mathematics for Industry, Fukuoka, Japan Jul 11, 2014
  Geometry Seminar
  "Helicoidal Surfaces of Value m"

- **Katholieke Leuven University**, Department of Mathematics, Leuven, Belgium Feb 10, 2012
  Geometry Seminar
  "On Bour's Minimal Surface"

Publications

2026

- E. Güler, M. Toda "A Weierstrass-type representation for maximal surfaces in the five-dimensional Minkowski space $\mathbb{R}^5_1$." *International Journal of Computational Geometry and Applications*, **36** 1-2 (2026) 63–83.

- E. Güler, Y. Yaylı, H.H. Hacısalihoğlu "3-Rotational hypersurface satisfying $\Delta^{IV}x = Ax$ in $\mathbb{E}^6$." *Boletim da Sociedade Paranaense de Matemática*, **44** (2026) 1–12.
- M. Toda, E. Güler "Möbius-type minimal surfaces family in $\mathbb{R}^4$ via the generalized Weierstrass–Enneper representation." *Mathematica Slovaca* (2026).
- E. Güler, M. Toda "Weierstrass-type constructions, variational analysis and integral-free minimal immersions in $\mathbb{R}^n$." *AIMS Electronic Research Archive*, **34**(3) (2026) 1885–1899.
- M. Toda, M.D. Atampalage, E. Güler "Minimal surfaces in $\mathbb{H}^3(-1)$ via Willmore geometry, Gauss maps, meromorphic potentials, and algorithmic constructions." *Open Mathematics*, **24**(1) (2026) 20250246.
- E. Güler, M. Toda "A study of special Weingarten hypersurfaces in $\mathbb{R}^4$ with spherical foliations." *Journal of Geometry and Symmetry in Physics*, **75** (2026) 39–49.
- M. Toda, E. Güler, M.D. Atampalage "A Weierstrass–Kenmotsu type representation for CMC $0 \leq H < 1$ in $\mathbb{H}^3(-1)$ via adjusted Gauss maps and Iwasawa splitting." *Differential Geometry and its Applications*, **103** (2026) 102383.
- E. Aulisa, M. Toda, S. Fields, E. Güler "Red blood cells as elastic surfaces: Cassini ovals, Helfrich shape equation, and biophysical regimes." *AIMS Electronic Research Archive*, **34**(1) (2026) 31–47.
- M. Toda, E. Güler "On Scherk-type minimal immersion in $\mathbb{R}^4$ constructed by the generalized Weierstrass–Enneper representation." *AIMS Mathematics*, **11**(3) (2026) 5456–5475.

2025

- M. Toda, E. Güler "Generalized Weierstrass-Enneper representation for minimal surfaces in $\mathbb{R}^4$." *AIMS Mathematics*, **10**(9) (2025) 22406–22420.
- E. Güler, Y. Yaylı, H.H. Hacısalihoğlu "A particular type of space-like rotational hypersurfaces in pseudo-Euclidean 4-space $\mathbb{E}_2^4$." *Geometry, Integrability and Quantization*, **32** (2025) 33–46.
- E. Güler, C. Konaxis, M. Toda "C.C. Chen's minimal surface: from parametric form to algebraic equation." *Journal of Geometry and Symmetry in Physics*, **72** (2025) 39–57.
- E. Güler, Y. Yaylı, H.H. Hacısalihoğlu "On a certain class of rotational hypersurfaces satisfying $\Delta x = Ax$ in the six-dimensional Euclidean space." *Romanian Journal of Mathematics and Computer Science*, **15**(2) (2025) 55–67.
- E. Güler, N.C. Turgay "Rotational hypersurfaces satisfying $\mathbb{L}_{n-3}\mathcal{G} = \mathcal{A}\mathcal{G}$ in the n-dimensional Euclidean space." *Advances in Applied Mathematics*, **167** (2025) 102879.
- E. Güler, Y. Yaylı, M. Toda "Differential geometry and matrix-based generalizations of the Pythagorean theorem in space forms." *Mathematics*, **13**(5) (2025) 836.

2024

- E. Güler, B. Senoussi "The Chen type of conoid surfaces family in Minkowski 3-space $\mathbb{L}^3$." *Filomat*, **38**(31) (2024) 10919–10927.
- E. Güler "Investigating helical hypersurfaces within 7-dimensional Euclidean space." *Journal of Mathematics*, 3459717 (2024) 1–12.

2007

- E. Güler "Bour's theorem and lightlike profile curve." *Yokohama Mathematical Journal*, **54**(1) (2007) 55–77.

2006

- E. Güler, A. Turgut Vanlı "Bour's theorem in Minkowski 3-space." *Journal of Mathematics of Kyoto University*, **46**(1) (2006) 47–63.

INVITED TALKS & CONFERENCE PRESENTATIONS

Papers presented at international scientific events and published as full-text articles, abstracts, or posters.

2026

- E. Güler, M. Toda "Explicit Maximal Surfaces via a New Weierstrass-Type Representation in Minkowski 5-Space." *XX Red Raider Minisymposium, Geometric Analysis and Applications*, Part 2, Texas Tech University, November 21, 2026, Lubbock, TX, USA (Poster presentation).
- E. Güler, M. Toda "A Study of Special Weingarten Hypersurfaces in $\mathbb{R}^4$ with Spherical Foliations." *XXVIth International Conference: Geometry, Integrability and Quantization*, June 4–11, 2026, Varna, Bulgaria (Presented, published as abstract).
- M. Toda, E. Güler "Generalized Weierstrass–Enneper Representation Formula for Minimal Surfaces in Four-Dimensional Space." *XX Red Raider Minisymposium, Geometric Analysis and Applications*, Part 1, Texas Tech University, April 25, 2026, Lubbock, TX, USA (Poster presentation).

2025

- E. Güler, Yaylı Y., Hacısalihoğlu H.H. "On a Particular Type of Bi-Rotational Hypersurfaces in Pseudo-Euclidean 4-Space $\mathbb{E}_2^4$." *XXVth International Conference: Geometry, Integrability and Quantization*, June 5–12, 2025, Varna, Bulgaria (Presented, published as abstract).
- E. Güler, Konaxis C., Toda M. "C.C. Chen's Minimal Surface: From Parametric Form to Algebraic Equation." *XXVth International Conference: Geometry, Integrability and Quantization*, June 5–12, 2025, Varna, Bulgaria (Presented, published as abstract).
- E. Güler, Y.Yaylı, H.H. Hacısalihoğlu "On a Certain Class of Rotational Hypersurfaces Satisfying $\Delta x = Ax$ in the Six-Dimensional Euclidean Space." *The International Conference Riemannian Geometry and Applications – RIGA 2025*, May 23–25, 2025, Bucharest, Romania (Presented, published as abstract).
- E. Güler, Y. Yaylı, B. Karakaş, H.H. Hacısalihoğlu"A Specific Type of Rotational Hypersurface in the Eight-Dimensional Euclidean Space $\mathbb{E}^8$." *Proceedings of the 2nd International Symposium on Square Bamboos and the Geometree (ISSBG 2023)*, Gielis J., Brasili S. (Eds.), Geniaal Press, Antwerp, Belgium (Published as full text, 2025).

2024

- E. Güler "On a Class of Helical Hypersurfaces in Seven-Dimensional Euclidean Space." *68th Meeting at Texas A&M University*, Nov 8–10, 2024, College Station, TX, USA (Poster presentation).
- E. Güler "Exploring Space-like Profile Curve Configurations on Helical Surfaces with a Light-like Axis in $\mathbb{L}^3$." *2nd International Conference on Scientific and Innovative Studies (ICSIS 2024)*, Apr 18–19, 2024 (Presented, published as full text).
- E. Güler "Surfaces with a Light-like Axis in $\mathbb{L}^3$: Cyclohelical Configurations." *2nd International Conference on Scientific and Innovative Studies (ICSIS 2024)*, Apr 18–19, 2024 (Presented, published as full text).
- E. Güler, Ö. Kişi, R. Akbıyık. "Lemniscate-Helical Surfaces with a Space-like Axis in $\mathbb{L}^3$." *4th International Conference on Innovative Academic Studies (ICIAS)*, Mar 12–13, 2024 (Presented, published as full text).
- E. Güler, Ö. Kişi, R. Akbıyık. "Lemniscate-Curve Elegance: Helical Surfaces Infused with a Time-Like Axis in Minkowski 3-Space." *4th International Conference on Innovative Academic Studies (ICIAS)*, Mar 12–13, 2024 (Presented, published as full text).
- Ö. Kişi, E. Güler, N. Üstünsoy. "Some Inclusion Relations of Sequences in Gradual 2-Normed Linear Space." *4th International Conference on Innovative Academic Studies (ICIAS)*, Mar 12–13, 2024 (Presented, published as full text).

- Ö. Kişi, E. Güler, N. Üstünsoy. "On Generalized Statistical Convergence in Gradual 2-Normed Linear Space." *4th International Conference on Innovative Academic Studies (ICIAS)*, Mar 12–13, 2024 (Presented, published as full text).
- E. Güler, Ö. Kişi, R. Akbıyık. "Cyclohelical Surfaces with a Time-like Axis in Minkowski 3-Space." *4th International Conference on Innovative Academic Studies (ICIAS)*, Mar 12–13, 2024 (Presented, published as full text).
- E. Güler, Ö. Kişi, R. Akbıyık. "Cyclohelical Surfaces Having a Space-like Axis in the Three-Dimensional Minkowski Space." *4th International Conference on Innovative Academic Studies (ICIAS)*, Mar 12–13, 2024 (Presented, published as full text).
- Ö. Kişi, E. Güler, E. Hevesker. "Further Results on Lacunary Statistical Convergence of Double Sequences in Probabilistic G-Metric Spaces." *4th International Conference on Innovative Academic Studies (ICIAS)*, Mar 12–13, 2024 (Presented, published as full text).
- Ö. Kişi, E. Güler, E. Hevesker. "On Neutrosophic I_2-Lacunary Statistical Convergence of Order α of Neutrosophic Random Variables in Probability." *4th International Conference on Innovative Academic Studies (ICIAS)*, Mar 12–13, 2024 (Presented, published as full text).

2023

- E. Güler "Helical Hypersurfaces in Four-Dimensional Minkowski Space." *Second International Symposium Square Bamboos and the Geometree*, Dec 4–5, 2023, Belgium (Presented, published as abstract).
- E. Güler, Ö. Kişi. "Tchirnhausen Rotational Hypersurface in 4-Space." *3rd International Conference on Engineering and Applied Natural Sciences (ICEANS 2023)* (Presented, published as full text).
- E. Güler, Ö. Kişi. "Agnesi's Helical Surface." *3rd International Conference on Engineering and Applied Natural Sciences (ICEANS 2023)* (Presented, published as full text).
- E. Güler, Ö. Kişi. "Tschirnhausen Helical Surface in Three Dimensional Euclidean Space." *2nd International Conference on Innovative Academic Studies (ICIAS 2023)* (Presented, published as full text).

2022

- E. Güler, Ö. Kişi. "Epitrochoidal Surfaces." *ICOM 2022 – International Conference on Mathematics: An Istanbul Meeting for World Mathematicians*, June 21–24, 2022, Istanbul, Türkiye (Presented, published as full text).
- Ö. Kişi, E. Güler "Rough Statistical λ^2-Convergence of Double Sequences of Order α." *ICOM 2022 – International Conference on Mathematics: An Istanbul Meeting for World Mathematicians*, June 21–24, 2022, Istanbul, Türkiye (Presented, published as full text).
- E. Güler, Ö. Kişi. "Strophoidal Hypersurfaces in Four-Dimensional Euclidean Space." *ICOM 2022 – International Conference on Mathematics: An Istanbul Meeting for World Mathematicians*, June 21–24, 2022, Istanbul, Türkiye (Presented, published as full text).
- Ö. Kişi, E. Güler "Rough Statistical Convergence of Order α for Complex Uncertain Double Sequences." *ICOM 2022 – International Conference on Mathematics: An Istanbul Meeting for World Mathematicians*, June 21–24, 2022, Istanbul, Türkiye (Presented, published as full text).
- E. Güler, Ö. Kişi. "On Viviani's Helical Surface." *1st International Conference on Engineering and Applied Natural Sciences (ICEANS 2022)*, May 10–13, 2022 (Presented, published as full text).
- Ö. Kişi, E. Güler "I_2-Convergence for Double Sequences via Orlicz Function in Intuitionistic Fuzzy Metric Spaces." *1st International Conference on Engineering and Applied Natural Sciences (ICEANS 2022)*, May 10–13, 2022 (Presented, published as full text).
- E. Güler, Ö. Kişi. "Hypotrochoidal Rotational Hypersurfaces." *1st International Conference on Engineering and Applied Natural Sciences (ICEANS 2022)*, May 10–13, 2022 (Presented, published as full text).
- Ö. Kişi, E. Güler "I_θ-convergence of triple sequences in intuitionistic fuzzy normed linear spaces." *1st International Conference on Engineering and Applied Natural Sciences (ICEANS 2022)*, May 10–13, 2022 (Presented, published as full text).

2021

- E. Güler, Ö. Kişi. "Cycloidal Surfaces." *1st International Conference on Applied Engineering and Natural Sciences (ICAENS 2021)*, Konya, Türkiye (Presented, published as full text).
- E. Güler, Ö. Kişi. "Helicoidal Surfaces Constructed by Lemniscate Curve: Lemniscatoidal Surface." *1st International Conference on Applied Engineering and Natural Sciences (ICAENS 2021)*, Konya, Türkiye (Presented, published as full text).
- Ö. Kişi, E. Güler "On Asymptotically f-Rough Lacunary Invariant Equivalence of Double Sequences via Ideals." *1st International Conference on Applied Engineering and Natural Sciences (ICAENS 2021)*, Konya, Türkiye (Presented, published as full text).
- Ö. Kişi, E. Güler "Rough Lacunary Statistical Convergent Functions via Ideals with regards to the Intuitionistic Fuzzy Normed Spaces." *1st International Conference on Applied Engineering and Natural Sciences (ICAENS 2021)*, Konya, Türkiye (Presented, published as full text).
- E. Güler, Ö. Kişi. "Curvatures of the Astro-Rotational Hypersurfaces." *5th International Online Conference on Mathematics: An Istanbul Meeting for World Mathematicians (ICOM 2021)*, Nov 1–3, Istanbul, Türkiye (Presented, published as full text).
- E. Güler, Ö. Kişi. "Translation Hypersurfaces and Curvatures in the Four Dimensional Euclidean Space." *5th International Online Conference on Mathematics: An Istanbul Meeting for World Mathematicians (ICOM 2021)*, Nov 1–3, Istanbul, Türkiye (Presented, published as full text).

- Ö. Kişi, E. Güler "On Wijsman I_λ-Statistical Convergence for Sequences of Sets in Intuitionistic Fuzzy Normed Spaces." *5th International Online Conference on Mathematics: An Istanbul Meeting for World Mathematicians (ICOM 2021)*, Nov 1–3, Istanbul, Türkiye (Presented, published as full text).
- Ö. Kişi, E. Güler "Some Results on Rough Weighted Ideal Statistical Convergence of Sequences." *5th International Online Conference on Mathematics: An Istanbul Meeting for World Mathematicians (ICOM 2021)*, Nov 1–3, Istanbul, Türkiye (Presented, published as full text).

2020

- E. Güler, Ö. Kişi. "Curvatures of the Translation Hypersurface in 4-Space." *International Conference on Mathematics: An Istanbul Meeting for World Mathematicians (ICOM 2020)*, Oct 27–30, 2020, Istanbul, Türkiye, pp. 226–230 (Presented, published as full text).
- E. Güler, Ö. Kişi. "On Fourth Fundamental Form of the Translation Hypersurface." *International Conference on Mathematics: An Istanbul Meeting for World Mathematicians (ICOM 2020)*, Oct 27–30, 2020, Istanbul, Türkiye, pp. 412–417 (Presented, published as full text).
- Ö. Kişi, E. Güler "Lacunary Statistical Convergence of Sequences in Neutrosophic Normed Spaces." *International Conference on Mathematics: An Istanbul Meeting for World Mathematicians (ICOM 2020)*, Oct 27–30, 2020, Istanbul, Türkiye, pp. 345–354 (Presented, published as full text).
- Ö. Kişi, E. Güler "Rough Statistical Convergence of Double Sequences of Fuzzy Numbers." *International Conference on Mathematics: An Istanbul Meeting for World Mathematicians (ICOM 2020)*, Oct 27–30, 2020, Istanbul, Türkiye, pp. 480–486 (Presented, published as full text).

2019

- E. Güler, Ö. Kişi. "One Sided Henry Smith Surface." *4th International Conference on Computational Mathematics and Engineering Sciences*, Antalya, Türkiye (Presented, published as full text).
- E. Güler, Ö. Kişi. "Helicoidal Surface of Logarithmic Spiral Type in 3-Space." *4th International Conference on Computational Mathematics and Engineering Sciences*, Antalya, Türkiye (Presented, published as full text).
- Ö. Kişi, E. Güler "Λ-Statistical Convergence of Complex Uncertain Sequences." *4th International Conference on Computational Mathematics and Engineering Sciences*, Antalya, Türkiye (Presented, published as full text).
- Ö. Kişi, E. Güler "On I_σ-Convergence of Sequences of Functions in 2-Normed Spaces." *4th International Conference on Computational Mathematics and Engineering Sciences*, Antalya, Türkiye (Presented, published as full text).
- E. Güler "Deltohelicoidal Surfaces." *I. International Science and Innovation Congress (INSI 2019)*, Denizli, Türkiye (Presented, published as full text).
- E. Güler "Cardiohelicoidal Surfaces." *I. International Science and Innovation Congress (INSI 2019)*, Denizli, Türkiye (Presented, published as full text).
- E. Güler, Ö. Kişi. "Astrohelicoidal Surfaces." *International Conference on Mathematics and Mathematics Education (ICMME 2019)*, Konya, Türkiye (Presented, published as full text).

2018

- Turgay N.C., E. Güler "On the Gauss Map of a Class of Hypersurfaces in $\mathbb{H}^4$." *7th International Eurasian Conference on Mathematical Sciences and Applications (IECMSA-2018)*, *AIP Conference Proceedings*, **2037** (2018), 1–8 (Presented, published as full text).

- E. Güler, Ö. Kişi. "Torus Hypersurface in 4-Space." *International Conference on Analysis and Its Applications (ICAA-2018)*, Kırşehir, Türkiye (Presented, published as full text).
- E. Güler, Ö. Kişi. "Helicoidal Hypersurfaces of Dini-Type in the Four Dimensional Minkowski Space." *International Conference on Analysis and Its Applications (ICAA-2018)*, Kırşehir, Türkiye (Presented, published as full text).
- Ö. Kişi, E. Güler "Lacunary I_2-Invariant Convergence of Double Sequences of Functions on Amenable Semigroups." *International Conference on Analysis and Its Applications (ICAA-2018)*, Kırşehir, Türkiye (Presented, published as full text).
- Ö. Kişi, E. Güler "A Generalized Statistical Convergence via Ideals Defined by Folner Sequence on Amenable Semigroup." *International Conference on Analysis and Its Applications (ICAA-2018)*, Kırşehir, Türkiye (Presented, published as full text).
- E. Güler, Ö. Kişi. "Helicoidal Surface of Torus Type in 3-Space." *International Conference on Mathematical Studies and Applications (ICMSA-2018)*, Oct 4–6, 2018, Karaman, Türkiye (Presented, published as full text).
- E. Güler, Ö. Kişi. "Torus Type Helicoidal Hypersurface in 4-Space." *International Conference on Mathematical Studies and Applications (ICMSA-2018)*, Oct 4–6, 2018, Karaman, Türkiye (Presented, published as full text).
- Ö. Kişi, E. Güler "On ∇_2-Statistical Convergence of Double Sequences in Random 2-Normed Spaces." *International Conference on Mathematical Studies and Applications (ICMSA-2018)*, Oct 4–6, 2018, Karaman, Türkiye (Presented, published as full text).
- Ö. Kişi, E. Güler "Lacunary I_2-Invariant Convergence of Double Sequences in Random 2-Normed Spaces." *International Conference on Mathematical Studies and Applications (ICMSA-2018)*, Oct 4–6, 2018, Karaman, Türkiye (Presented, published as full text).
- E. Güler, A. Gümüşok Karaalp. "Ulisse Dini-Type Helicoidal Surface in 3-Space." *International Conference on Mathematics and Mathematics Education (ICMME-2018)*, Ordu, Türkiye (Presented, published as abstract).
- E. Güler, A. Gümüşok Karaalp. "Ulisse Dini-type Helicoidal Hypersurface 4-Space." *International Conference on Mathematics and Mathematics Education (ICMME-2018)*, Ordu, Türkiye (Presented, published as abstract).
- E. Güler, H.H. Hacısalihoğlu. "Möbius-Type Hypersurface in 4-Space." *16th International Geometry Symposium*, Manisa, Türkiye (Presented, published as abstract).
- E. Güler, G. Kaimakamis, M. Magid. "Helicoidal Hypersurfaces in the Four Dimensional Minkowski Space." *16th International Geometry Symposium*, Manisa, Türkiye (Presented, published as abstract).
- E. Güler, N.C. Turgay. "Cheng–Yau Operator and Gauss Map of Rotational Hypersurfaces in the Four Dimensional Euclidean Space." *16th International Geometry Symposium*, Manisa, Türkiye (Presented, published as abstract).

2017

- E. Güler, Ö. Kişi. "Differential Equations on the Rotational Hypersurfaces in $\mathbb{E}^5$." *4th International Intuitionistic Fuzzy Sets and Contemporary Mathematics Conference (IFSCOM 2017)*, Mersin University, Mersin, Türkiye (Presented, published as abstract).
- Ö. Kişi, E. Güler "New Convergence Definitions for a Sequence of Order α of Random Variables in Probability." *4th International Intuitionistic Fuzzy Sets and Contemporary Mathematics Conference (IFSCOM 2017)*, Mersin University, Mersin, Türkiye (Presented, published as abstract).

- E. Güler, Ö. Kişi. "Rotational Hypersurfaces in $\mathbb{E}^6$." *4th International Intuitionistic Fuzzy Sets and Contemporary Mathematics Conference (IFSCOM 2017)*, Mersin University, Mersin, Türkiye (Presented, published as abstract).
- Ö. Kişi, E. Güler "σ-Asymptotically Lacunary Statistical Equivalent Functions on Amenable Semigroups." *4th International Intuitionistic Fuzzy Sets and Contemporary Mathematics Conference (IFSCOM 2017)*, Mersin University, Mersin, Türkiye (Presented, published as abstract).
- E. Güler, H.H. Hacısalihoğlu. "Generalized Helicoidal 3-Surface in 4-Space." *15th International Geometry Symposium*, Amasya University, Amasya, Türkiye (Presented, published as abstract).
- E. Güler, H.H. Hacısalihoğlu. "On the Gauss Map of the Rotational 3-Surface in 4-Space." *15th International Geometry Symposium*, Amasya University, Amasya, Türkiye (Presented, published as abstract).
- E. Güler, Ö. Kişi. "Uniform I-Lacunary Statistical Convergence on Time Scales." *Caucasian Mathematics Conference (CMC-II)*, Yüzüncü Yıl University, Van, Türkiye (Presented, published as abstract).
- E. Güler, Ö. Kişi. "The Second Laplace-Beltrami Operator on The Rotational Hypersurfaces in the Euclidean 4-Space." *Caucasian Mathematics Conference (CMC-II)*, Yüzüncü Yıl University, Van, Türkiye (Presented, published as abstract).

2016

- E. Güler, Ö. Kişi. "Enneper-Type Surfaces in Three Dimensional Minkowski Space." *International Conference on Recent Advances in Pure and Applied Mathematics (ICRAPAM 2016)*, Muğla, Türkiye (Presented, published as abstract).
- S. Saraçoğlu Çelik, E. Güler, Ö. Kişi. "Euler Spirals." *International Conference on Analysis and Applications (ICAA-2016)*, Ahi Evran University, Kırşehir, Türkiye (Presented, published as abstract).
- E. Güler "Weierstrass Representation, Degree and classes of the Surfaces in the Four Dimensional Euclidean Space." *3rd International Intuitionistic Fuzzy Sets and Contemporary Mathematics Conference (IFSCOM 2016)*, Mersin University, Mersin, Türkiye (Presented, published as abstract).
- E. Güler, Ö. Kişi, S. Saraçoğlu Çelik. "TF-Type Hypersurfaces in 4-Space." *3rd International Intuitionistic Fuzzy Sets and Contemporary Mathematics Conference (IFSCOM 2016)*, Mersin University, Mersin, Türkiye (Presented, published as abstract).
- Ö. Kişi, S. Saraçoğlu Çelik, E. Güler "New Sequence Spaces with Respect to a Sequence of Modulus Functions." *3rd International Intuitionistic Fuzzy Sets and Contemporary Mathematics Conference (IFSCOM 2016)*, Mersin University, Mersin, Türkiye (Presented, published as abstract).
- E. Güler, M. Magid, Y. Yaylı. "Rotational Hypersurface in 4-Space." *International Conference on Analysis and Applications (ICAA-2016)*, Ahi Evran University, Kırşehir, Türkiye (Presented, published as abstract).
- E. Güler, Ö. Kişi, S. Saraçoğlu Çelik. "Enneper-Type Surfaces in 4-Space." *International Conference on Analysis and Applications (ICAA-2016)*, Ahi Evran University, Kırşehir, Türkiye (Presented, published as abstract).
- Ö. Kişi, S. Saraçoğlu Çelik, E. Güler "On I_2-Asymptotically λ^2-Statistical Equivalent Double Set Sequences." *International Conference on Analysis and Applications (ICAA-2016)*, Ahi Evran University, Kırşehir, Türkiye (Presented, published as abstract).

2015

- E. Güler, M. Yasumoto. "Bour Surface Companions in Space Forms." *XVII International Conference on Geometry, Integrability and Quantization*, Varna, Bulgaria (Presented, published as abstract).

- M. Magid, E. Güler "A Two-Parameter Family of Bour's Surfaces in Four-Space." *International Workshop on Geometry of Riemannian and Hermitian Manifolds*, Sofia, Bulgaria (Presented, published as abstract).
- E. Güler, Y. Yaylı. "Generalized Bour Theorem in Minkowski Space Form." *International Conference on Pure and Applied Mathematics (ICPAM)*, Van, Türkiye (Presented, published as abstract).
- E. Güler, V. Zambak. "Algebraic Surfaces of Henneberg in Minkowski 3-Space." *International Conference on Pure and Applied Mathematics (ICPAM)*, Van, Türkiye (Presented, published as abstract).
- E. Güler "Higher order algebraic Enneper surfaces in Minkowski geometry." *X Ankara Mathematics Days, Middle East Technical University*, Ankara, Türkiye (Presented, published as abstract).
- E. Güler, Y. Yaylı, S. Saraçoğlu Çelik, H.H. Hacısalihoğlu. "Algebraic Surfaces of the Laplace-Beltrami Operators of the TF-Type Surfaces." *XIII Geometry Symposium, Yıldız Teknik University*, Istanbul, Türkiye (Presented, published as abstract).
- E. Güler, S. Saraçoğlu Çelik. "Polynomial Zero Mean Curvature Surfaces in Minkowski 3-Space." *XIII Geometry Symposium, Yıldız Teknik University*, Istanbul, Türkiye (Presented, published as abstract).
- E. Güler "Helicoidal Surfaces of Value (m, n) in 3-Space." *XIII Geometry Symposium, Yıldız Teknik University*, Istanbul, Türkiye (Presented, published as abstract).
- E. Güler "Lorentz-Minkowski 3-Uzayında Null Yuvarlanmalar." *IX Ankara Mathematics Days, Atılım University*, Ankara, Türkiye (Presented, published as abstract).
- S. Saraçoğlu Çelik, Ö. Kişi, E. Güler "Euler Spirals in Space Forms." *International Conference on Pure and Applied Mathematics (ICPAM)*, Van, Türkiye (Presented, published as abstract).

2014

- E. Güler "Bour's Minimal Surface Revisited: The Irreducible Implicit Equation of the Incomplete Surface." *International Mathematics Symposium, KMD Karatekin Mathematics Days 2014*, Çankırı, Türkiye (Presented, published as abstract).
- E. Güler "Helicoidal Surfaces of Value m in Euclidean 3-Space." *XII Geometry Symposium, Bilecik Şeyh Edebali University*, Bilecik, Türkiye (Presented, published as abstract).

2013

- E. Güler "Bour's Minimal Surface in Three Dimensional Lorentz-Minkowski Space." *GeLoSP2013, VII International Meetings on Lorentzian Geometry, São Paulo University*, São Paulo, Brazil (Presented, published as abstract).
- E. Güler "Bour's Surface in the 3-Dimensional Minkowski Space $\mathbb{L}^3$." *XI Geometry Symposium, Ordu University*, Ordu, Türkiye (Presented, published as abstract).
- E. Güler "On Bour's Minimal Surface." *XI Geometry Symposium, Ordu University*, Ordu, Türkiye (Presented, published as abstract).
- E. Güler "(T, L)-Type Rotational Surface in Three Dimensional Lorentz-Minkowski Space." *VIII Ankara Mathematics Days, Çankaya University*, Ankara, Türkiye (Presented, published as abstract).

2012

- E. Güler, Y. Yaylı. "Isometric Surfaces and III Laplace-Beltrami Operator in Three Dimensional Euclidean Space." *X Geometry Symposium, Balıkesir University*, Balıkesir, Türkiye (Presented, published as abstract).

2011

- E. Güler "Minkowski 3-Uzayında Light-Like Üreteç Eğrili İzometrik Yüzeyler." *VI Ankara Mathematics Days, Hacettepe University*, Ankara, Türkiye (Presented, published as abstract).

2010

- E. Güler, Y. Yaylı. "Generalized Bour's Theorem in 3-Dimensional Euclidean Space." *VIII Geometry Symposium, Akdeniz University*, Antalya, Türkiye (Presented, published as abstract).

2009

- E. Güler, Y. Yaylı, H.H. Hacısalihoğlu. "Bour's Theorem on Gauss Map in 3-Euclidean Space." *VII Geometry Symposium, Ahi Evran University*, Kırşehir, Türkiye (Presented, published as abstract).

2008

- E. Güler, H.H. Hacısalihoğlu. "Timelike Rotational Surfaces With Lightlike Profile Curve." *VI Geometry Symposium, Uludağ University*, Bursa, Türkiye (Presented, published as abstract).

2007

- E. Güler, T. Ikawa. "Bour's Theorem with Lightlike Axis in $\mathbb{R}^3_1$." *The Conference of the Mathematical Society of Japan, Saitama University*, Saitama, Japan (Presented, published as abstract).

2006

- E. Güler, A. Vanlı. "On the Mean, Gaussian, the Second Mean and the Second Gaussian Curvature of the Helicoidal Surfaces with Lightlike Axis in $\mathbb{R}^3_1$." *IV International Geometry Symposium, Karaelmas University*, Zonguldak, Türkiye (Presented, published as abstract).
- E. Güler, A. Vanlı. "3-Boyutlu Minkowski Uzayında Light-Like Eksenli Helisoidal Yüzeyler." *I Ankara Mathematics Days, Gazi University*, Ankara, Türkiye (Poster presentation).

2004

- E. Güler, A. Vanlı. "Bour's Theorem in Minkowski 3-Space." *II Geometry Symposium, Sakarya University*, Sakarya, Türkiye (Presented, published as abstract).

Monographs

- E. Güler, Ö. Kişi. *Richmond Minimal Yüzeyler Ailesi ve Cebirsel Yüzeyleri* [The Family of Richmond Minimal Surfaces and Their Algebraic Surfaces]. Nobel Academic Publishing, 104 pp., Ankara, Türkiye, 2022. ISBN: 978-625-433-576-1.

Organized Events

- **Co-Organizer**, *XX Red Raider Mini-Symposium: Geometric Analysis and Applications*, Part 2. Nov 21, 2026
  Organizers: H. Tran, Á. Pámpano, M. Toda, E. Güler
  Department of Mathematics and Statistics, Texas Tech University, Lubbock, TX, USA.
- **Co-Organizer**, *XX Red Raider Mini-Symposium: Geometric Analysis and Applications*, Part 1. Apr 25, 2026
  Organizers: H. Tran, Á. Pámpano, M. Toda, E. Güler
  Department of Mathematics and Statistics, Texas Tech University, Lubbock, TX, USA.

Grants and Funded Projects

- **Co-Principal Investigator**, National Science Foundation (NSF) Grant DMS–2552723 **$17,100**
  Project Title: "XX Red Raider Mini-Symposium: Geometric Analysis and Applications." Mar 2026–2027
  Investigators: H. Tran, Á. Pámpano, M. Toda, E. Güler
  Department of Mathematics and Statistics, Texas Tech University, Lubbock, TX, USA.
- **Principal Investigator**, Scientific Research Project (BAP) 2017-FEN-A-007 **500 TL**
  Project Title: "Second Laplace–Beltrami Operator on Rotational Hypersurfaces in $\mathbb{R}^4$." 2017
  Investigators: E. Güler, Ö. Kişi
  Department of Mathematics, Bartın University, Bartın, Türkiye.
- **Principal Investigator**, Scientific Research Project (BAP) 2016-FEN-A-006 **500 TL**
  Project Title: "Weierstrass Representation, Degree, and Classes of Surfaces in $\mathbb{R}^4$." 2016
  Investigators: E. Güler, Ö. Kişi
  Department of Mathematics, Bartın University, Bartın, Türkiye.

- **Co-Principal Investigator**, Scientific Research Project (BAP) 2016-FEN-A-007 **500 TL**
  Project Title: "Some New Sequence Spaces Derived Using Sequence of Modulus Functions." 2016
  Investigators: Ö. Kişi, E. Güler
  Department of Mathematics, Bartın University, Bartın, Türkiye.

TEACHING EXPERIENCE

Texas Tech University Lubbock, TX, USA
Department of Mathematics and Statistics Fall 2024–Present
Role: Instructor of Record (Fully responsible for lectures, syllabus design, and grading)

Graduate Courses

- **MATH 5378: Applied Mathematics II** Summer 2026
  Section D21 – 3 Credit Hours (Enrollment: 5 students)
- **MATH 5376: Modern Geometry II** Spring 2026
  Section D01 – 3 Credit Hours (Enrollment: 6 students)
- **MATH 5375: Modern Geometry I** Fall 2025
  Section D01 – 3 Credit Hours (Enrollment: 8 students)

Undergraduate Courses

- **MATH 2450: Calculus III with Applications** Fall 2026
  Section 122 – 4 Credit Hours (Enrollment: 117 students)
  Section 123 – 4 Credit Hours (Enrollment: 88 students)
- **MATH 4331: Advanced Geometry** Summer 2026
  Section D01 – 3 Credit Hours (Enrollment: 10 students)
- **MATH 2450: Calculus III with Applications** Spring 2026
  Section 022 – 4 Credit Hours (Enrollment: 45 students)
- **MATH 2450: Calculus III with Applications (Honors)** Fall 2025
  Section H01 – 4 Credit Hours (Enrollment: 26 honors students)
- **MATH 2450: Calculus III with Applications** Summer 2025
  Section D11 – 4 Credit Hours (Enrollment: 82 students)
- **MATH 2450: Calculus III with Applications** Spring 2025
  Section 113 – 4 Credit Hours (Enrollment: 93 students)
- **MATH 2450: Calculus III with Applications** Fall 2024
  Section 111 – 4 Credit Hours (Enrollment: 92 students)

Bartın University Bartın, Türkiye
Department of Mathematics 2013–2024
Role: Instructor of Record (Fully responsible for lectures, syllabus design, and grading)

Graduate Courses (Ph.D. Level)

- **MAT 623: Riemannian Geometry I** 2021–2022
  3 Credit Hours (Taught 2 semesters)
- **MAT 625: Semi-Riemannian Geometry I** 2022–2023
  3 Credit Hours (Taught 1 semester)

Graduate Courses (M.Sc. Level)

- **MAT 588: Surface Design in Differential Geometry** 2013–2024
  3 Credit Hours (Taught 6 semesters)
- **MAT 787: Curve Design in Differential Geometry** 2013–2022
  3 Credit Hours (Taught 6 semesters)
- **MAT 795: Advanced Geometry Concepts** 2017–2021
  3 Credit Hours (Taught 4 semesters)
- **MAT 578: Scientific Research Methods and Publication Ethics** 2021–2024
  3 Credit Hours (Taught 2 semesters)
- **MAT 590: Advanced Differential Geometry** 2023–2024
  3 Credit Hours (Taught 1 semester)

Undergraduate Courses

- **MAT 403 / MAT 404: Mathematics Thesis I–II** 2014–2024
  4 Credit Hours (Supervised/Taught 12 semesters)
- **MAT 307: Differential Geometry I** 2016–2024
  4 Credit Hours (Taught 5 semesters)
- **MAT 308: Differential Geometry II** 2016–2024
  4 Credit Hours (Taught 5 semesters)
- **MAT 455 / MAT 454: Transformations and Geometries I–II** 2016–2024
  2 Credit Hours (Taught 4 semesters)
- **MAT 402: Numerical Analysis** 2017–2024
  4 Credit Hours (Taught 4 semesters)
- **MAT 452: Quaternion Theory** 2016–2024
  2 Credit Hours (Taught 3 semesters)
- **MAT 405: Number Theory** 2017–2023
  3 Credit Hours (Taught 2 semesters)
- **MAT 311 / MAT 312: Partial Differential Equations I–II** 2021–2023
  3 Credit Hours (Taught 2 semesters)
- **MAT 333 / MAT 336: Mathematical Programming I–II** 2014–2023
  3 Credit Hours (Taught 6 semesters)
- **MAT 221 / MAT 222: Programming Languages I–II** 2013–2023
  3 Credit Hours (Taught 8 semesters)
- **MAT 338: History of Mathematics** 2021–2023
  2 Credit Hours (Taught 2 semesters)
- **MAT 442: Philosophy of Mathematics** 2017–2023
  2 Credit Hours (Taught 2 semesters)
- **MAT 205 / MAT 206: Linear Algebra I–II** 2015–2022
  5 Credit Hours (Taught 6 semesters)
- **MAT 105 / MAT 106: Analytic Geometry I–II** 2019–2022
  4 Credit Hours (Taught 5 semesters)

- **MAT 103 / MAT 104: Abstract Mathematics I–II** 2020–2021
  4 Credit Hours (Taught 2 semesters)
- **MAT 306: Abstract Algebra II** 2016–2018
  3 Credit Hours (Taught 2 semesters)
- **MAT 441: Vector Analysis** 2023–2024
  2 Credit Hours (Taught 1 semester)

Service Mathematics Courses for Engineering & Education Departments

- **INS 701: Advanced Engineering Mathematics and Numerical Methods (Graduate)** 2020–2024
  3 Credit Hours (Taught 4 semesters)
- **MAK 702: Advanced Engineering Mathematics (Graduate)** 2018–2020
  3 Credit Hours (Taught 2 semesters)
- **MAT 101 / 102 / 111 / 112 / 181 / 182 / ORD 131 / 132: Mathematics I–II** 2013–2022
  4 Credit Hours (Taught 21 semesters)
- **MAT 201 / 203 / ORD 251: Differential Equations** 2013–2022
  4 Credit Hours (Taught 9 semesters)
- **MAT 183 / MAT 205: Linear Algebra** 2013–2022
  4 Credit Hours (Taught 7 semesters)
- **MAT 202: Numerical Analysis** 2013–2022
  4 Credit Hours (Taught 3 semesters)
- **MAK 205 / MAT 281 / MAT 282: Mathematics III** 2013–2022
  3 Credit Hours (Taught 2 semesters)
- **SNF 101 / 102 / FBO 109 / 110: Basic / General Mathematics** 2013–2022
  4 Credit Hours (Taught 4 semesters for Education Programs)
- **BSM 217: Discrete Mathematics** 2013–2022
  3 Credit Hours (Taught 1 semester)

Turkish Ministry of National Education (MEB)

Samsun & Ankara, Türkiye

Public High Schools 1998–2013

Role: Mathematics Teacher (Fully responsible for lecturing, curriculum implementation, and student evaluation for Grades 9–12)

- **Mathematics (Grades 9–12)** 1998–2013
  4 Weekly Lecture Hours
  Locations: Samsun Public High Schools (1998–2002), Ankara Public High Schools (2002–2013).
- **Geometry (Grades 9–12)** 1998–2013
  2 Weekly Lecture Hours
  Locations: Samsun Public High Schools (1998–2002), Ankara Public High Schools (2002–2013).

GRADUATE STUDENT SUPERVISION

Master's Theses Advised (M.Sc.)

- **K. Yılmaz**, "Hyperspheres Satisfying $\Delta^j x = Ax$ in 4-Space."
  Degree: Master of Science (M.Sc.) in Mathematics Graduated: 2022
  Role: Major Advisor | Graduate School of Natural and Applied Sciences, Bartın University.

- **A. Gümüşok Karaalp**, "Helicoidal Hypersurfaces of Type Dini in 4-Dimensional Euclidean Space."
  Degree: Master of Science (M.Sc.) in Mathematics Graduated: 2020
  Role: Major Advisor | Graduate School of Natural and Applied Sciences, Bartın University.

- **V. Zambak**, "Henneberg Minimal Surface in 3-Dimensional Minkowski Space."
  Degree: Master of Science (M.Sc.) in Mathematics Graduated: 2015
  Role: Major Advisor | Graduate School of Natural and Applied Sciences, Bartın University.

Administrative Service & Institutional Citizenship

- **Chair**, Department of Mathematics, Bartın University 2016–2017
- **Vice Chair**, Department of Mathematics, Bartın University 2019–2022
- **Chair**, Mathematics Graduate Program, Graduate School, Bartın University 2016–2018
- **Representative**, Faculty Executive Board, Faculty of Science, Bartın University 2021–2022
- **Representative**, Faculty Board, Faculty of Science, Bartın University 2021–2022
- **Member**, Faculty of Science Executive Board, Bartın University 2017–2020

Academic Advising

- **Lead Undergraduate Academic Advisor**, Department of Mathematics, Bartın University 2019–2023
  Provided comprehensive academic, course-enrollment, and career counseling for a cohort of 20+ undergraduate students, tracking and supporting their academic progression continuously from their first year through graduation.

Editorial Service

- **Editorial Board Member**, *Journal of Mathematics* (Wiley) 2023–Present

Outreach and Educational Activities

- **Volunteer Leader, Instructor**, *TTU Math Circle* Nov 13, 2025; Apr 9, 2026; Sep 10, 2026
  Department of Mathematics and Statistics, Texas Tech University, Lubbock, TX, USA.
  Delivered specialized mathematics enrichment lectures and interactive problem-solving sessions for local K–12 students.

- **Workshop Speaker**, *22nd Emmy Noether Day* May 14, 2025
  Department of Mathematics and Statistics, Texas Tech University, Lubbock, TX, USA.
  Presentation: *10 Trailblazing Women Who Shaped Mathematics*.

Professional Service & Mathematical Reviews

- **Reviewer for MathSciNet**, American Mathematical Society (AMS) 2014–Present
  Contributed **145 published reviews** of mathematical literature (as of September 9, 2026).

Academic Service & Journal Refereeing

Ad-hoc Reviewer for the following international journals: 2013–Present

Advances in Applied Mathematics; *Advances in Mathematical Physics*; *AIMS (American Institute of Mathematical Sciences) Mathematics*; *Axioms*; *Classical and Quantum Gravity*; *Communications Faculty of Sciences University of Ankara Series A1*; *Computers & Mathematics with Applications*; *Computers & Structures*; *Demonstratio Mathematica*; *Electronic Research Archive*; *Filomat*; *Graphical Models*; *Hacettepe Journal of Mathematics and Statistics*; *International Electronic Journal of Geometry*; *International Journal of Geometric Methods in Modern*

Physics; *Iranian Journal of Science and Technology, Transaction A: Science*; *Journal of Function Spaces*; *Journal of Inequalities and Applications*; *Journal of Intelligent and Fuzzy Systems*; *Journal of King Saud University – Computer and Information Sciences*; *Journal of Mathematics*; *Journal of Physics*; *Kuwait Journal of Science*; *Mathematics*; *Mediterranean Journal of Mathematics*; *Modern Physics Letters A*; *Nonlinear Analysis*; *Partial Differential Equations in Applied Mathematics*; *Proceedings of the Royal Society A*; *Physica Scripta*; *Results in Mathematics*; *Symmetry*; *Thermal Science*; *Turkish Journal of Mathematics*.

Awards and Honors

- **Postdoctoral Teaching Scholar Recognition**, Graduate School, Texas Tech University 2024–2026
  Awarded consecutively for the academic years 2024–2025 and 2025–2026 in recognition of excellence in university instruction.
- **Academic Performance Second Prize**, Bartın University 2022
  Awarded for outstanding research contributions and high-impact publications in international peer-reviewed journals.
- **National Academic Performance Incentive Award** (Awarded 7 times), Bartın University 2018–2024
  Annual state-sponsored incentive awarded for exemplary research outputs and international journal publications.
- **Certificate of Appreciation for Graduate Mentorship**, Graduate School, Bartın University 2022
  Awarded in recognition of outstanding research productivity and co-authoring scientific publications with graduate students.
- **Academic Performance Third Prize**, Bartın University 2018
  Awarded for high research productivity based on three articles published in international peer-reviewed journals.
- **Certificate of Appreciation for Over 25 Years of Educational Service**, Bartın University 2024
- **Certificate of Commendation for Excellence in Teaching**, Office of the District Governor Aug 14, 2006
  Awarded for outstanding service and pedagogical excellence as a mathematics instructor.
  Etimesgut, Ankara, Türkiye

Professional Training & Pedagogical Certificates

- **Certificate of Appreciation: Training of Trainers**, Measurement and Evaluation Workshop.
  Quality Coordination Office, Bartın University, Bartın, Türkiye May 6–7, 2019
- **Certificate of Participation: Training of Trainers Program** (12 Hours).
  Lifelong Learning Center, Hacettepe University, Ankara, Türkiye Oct 18–19, 2014
- **Certificate of Participation: Academic Writing for Publication Training**.
  Scientific and Technological Research Council of Türkiye (TUBITAK) Mar 14, 2014

K–12 Pedagogical Leadership & Professional Experience

Curriculum & Textbook Commissions, Turkish Ministry of National Education (MEB) Ankara, Türkiye

- **Appointed Subject Matter Expert**, High School Geometry Curriculum Commission 2008–2010
- **Appointed Subject Matter Expert**, High School Mathematics Textbook Review Commission 2007–2008

Turkish Ministry of National Education (MEB), Public High Schools Samsun & Ankara, Türkiye

- **Mathematics Teacher (Ph.D.)**, Ankara 2010–2013
- **Mathematics Teacher**, Ankara 2002–2010

- **Mathematics Teacher**, Samsun 1998–2002
